C

- calcino* silkworm disease, 29–32
- calicoes*: defined, 63, 129; prohibition of in France, 193–98
- Cardon, Dominique, 111–12, 115, 118, 125
- Carothers, Wallace, 37, 217–22
- Carquillat, Michel-Marie, 94–95
- charkha* spinning, 46, 48–49, 65. *See also* traditional techniques
- Chemical Society, 133, 220
- chemistry: in bioengineered silk, 36–40; in functional textiles and chemical finishes, 232–37; in organic silk-based finishes, 237–40; in synthetic fabric production, 217–24; in thermal management textile production, 240–44. *See also* innovations in textile production
- chemistry in dyeing processes: in ancient cultures, 109–11, 115–22; in eighteenth-century France, 130–34; to produce indigo, 111–15, 134; to produce purple, 115–22, 139–41; to produce red, 125–27; synthetic dye development, 136–42. *See also* innovations in textile production
- Chen, BuYun, 187
- China: bills of exchange used during Song Dynasty, 187; dress regulations during Ming dynasty, 186–88; early textile commerce during Tang dynasty, 152–53; evidence of *nålbinding* weaving in, 73–74; silk production in, 26, 27–29; spinning technology innovations in, 53; textile consumption during Song dynasty, 181–82; textile production during Yuan dynasty, 184–86
- chintz*, 129, 194, 196, 198, 216
- Chiu, Tien, 76
- civilization vs. culture, 3–4
- Cleveland Museum of Art, 65, 185
- clothiers* in early textile commerce, 163, 170–75
- coal tar* in synthetic dye production, 136–37
- cochineal* industry, 127–29
- Codde, Anna, 41–42, 47
- Colbert, Jean-Baptiste, 109, 130–31, 198
- commerce: in ancient Turkey, 147–52; and development of commercial banking, 163–70; in eleventh-century Iceland, 153–54; and mathematics in early bookkeeping, 158–63; role of middlemen in eighteenth-century, 170–77; during Tang dynasty, 152–53; and textiles as currency, 152–55; written correspondence in development of, 155–58. *See also* consumption of textiles
- commercial revolution: in eighteenth-century Britain, 163–70; during Song dynasty, 181–82
- commodification of textiles, 152–55
- Company of Merchants Trading to Africa, 199
- computer-based weaving, 99–101
- consumption of textiles: and custom-designed fabrics, 212–16; and dress regulations in Renaissance Italy, 189–93; during Edo period, 188–89; and evolving fashion trends in Guatemala, 209–12; and French calico prohibition, 193–98; and Ghanaian kente cloth industry, 203–9; and Javanese wax prints, 201–3; during Ming dynasty, 186–88; in

Mongol Empire, 182–86; during Song dynasty, 181–82; and West-African slave-trade, 198–201. *See also* commerce
corporate environmental responsibility, 142–45, 225–26, 239–40
correspondence. *See* written correspondence
corte, 210, 212. *See also* traditional clothing
cotton: and American inter-state slave trade, 23–24, 26; application of chemical finishes to, 233–37; cultivation of in Mississippi, 21–26; domestication of in northern climates, 17–20; domestication of on Yucatan Peninsula, 14, 16–17; emergence of cotton brokers, 175–78; genetic evolution of, 13–17; modern-day production of, 68–69
"cotton fever," 22–23
Coulthurst, Henry, 170
credit system, emergence of, 163–67. *See also* commerce
Crippa, Flavio, 57–58
Crompton, Samuel, 65
Crosby, Gillian, 194
cultivation: of cochineal, 128–29; of cotton, 17–25; of flax, 11–13; of silkworms, 26–29
cuneiform script: describing early textile commerce, 147–50. *See also* archaeological evidence
currency: and bills of exchange, 163–70; textiles as, 152–55, 200. *See also* commerce
customers. *See* consumption of textiles
custom fabric design, 212–16
